

Viva Maria Soleckyj Szpunar (Poland)

I was born and brought up in a family with cynological traditions.

Our Airedale Terrier fancying "Prima" was founded by my Grandmother Maria Szczepańska (the FCI judge) in 1947 and is now the oldest dog-fancying that's still active in Poland. Later, my mother Joanna Szczepańska - Korpetta, also the FCI judge, became the co-owner and now, the formal co-owners are also my younger sister Agata and me.

Airedale Terriers have been accompanying my family for 70 years and have been accompanying me for 44 years, being our love and the passion of our life. Currently, I personally own few Airedale Terriers, one American Akita, one Shar Pei and one Jack Russell Terrier. For as long as I remember, I've always wanted to follow the path of my Grandmother, Mother and their judge friends. I had much luck to study and learn under the great authorities: both judges and breeders. I judge dogs for 16 years.

I had a great honor to participate as a judge at International, National and Monographic shows in many countries (in Australia, Brazil, Belarus, Belgium, Czech Republic, Croatia, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Japan, Latvia, Lithuania, Luxembourg, Mexico, Norway, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, The Netherlands, Ukraine and of course Poland).

Maria Amelia Taborda (Portugal)

I had dogs all my life at my family's house. German Shepherds were my father's choice.

At 17 I found a breed I didn't know in Portugal and I dreamed for – the Bernese Mountain Dog.

The results of our work (my husband with the "Atwater" affix for Newfies and mine "Casa dos Herdeiros do Lobo" for BMD) were really positive and I understood that judging some breeds would be the logical consequence of my work. National Judge from 2002, in 2007 I became an International FCI Judge. Now I judge all breeds of FCI Group II and Group II finals and also a few breeds of Group I.

I have judged several times in my country, Portugal, and also in France, Ireland, Norway, Russia, Luxembourg, Czech

Republic, Italy, Lithuania, USA (The Parade of Portugal, in Kalamazoo, Michigan), Sweden, Holland, Spain, Belgium, Reunion Island, Latvia, Poland, Greece and Gibraltar. I have also judged some important Specialties in Portugal, France, Russia, Czech Republic, Italy, Holland, Belgium, Poland, Estonia, among others.

At present, I am involved in some new projects based on “Morphologic Evaluation” and “The dog, the function and the therapies”.
