I grew up with dogs. Our favourite family breed was a German boxer. My first own show dog, however, was a Labrador Retriever who opened the windows to my handling career, which rather quickly transformed from a hobby into a rather serious engagement. I have been showing dogs from all 10 FCI groups for more than 10 years and taught several handling master classes worldwide, including the USA. During those years I also engaged in breeding and bred a few litters. I participated in all major European and World dog shows with my dogs, and some of them won European and World Winner titles. I always participated in organising and holding dog

shows and worked for many years in show rings as an interpreter from English and Serbian. Japanese Akitas came into my life a few Years ago and they already won quite a few highly ranked dog shows in Europe.
